

Northern Border University

Sustainability

Sustainability committee

Northern Border University (NBU) has established a Sustainability Team dedicated to advancing environmental and social sustainability initiatives within the institution. This team is part of NBU's commitment to sustainable development, as outlined in their development goals.

The Sustainability Team is involved in various aspects, including:

Environmental Impact: Implementing policies and training related to climate action and environmental sustainability.

Equality: Promoting equality, diversity, and inclusion within the university community.

Knowledge Exchange: Facilitating the exchange of knowledge to promote sustainable practices.

Health and Wellbeing: Providing services that support health and wellbeing
